

ESCO All-Cast™ Blades and End Bits

ENHANCED OFFERING NOW AVAILABLE FOR KEY CONSTRUCTION AND MINING MACHINES

The Blades Product Team is pleased to announce an expanded offering for ESCO's All-Cast blades and end-bits to fit mining class dozers and graders.

The revised offering of cast blades and end-bits will cover Cat D8 through D11 dozers (U, semi-U and carry style machines), Cat 16G and 24H motor graders, and Komatsu D375 dozers. In addition to individual components, a comprehensive package of kits will be available that contain the required blades and bolt package required to upgrade a given machine to ESCO All-Cast blades and end-bits.

The All-Cast package was expanded to cover more mining class machines to allow dealers to better service their mining customers. The package will be offered with open distribution to all ESCO blade dealers worldwide.

See Back Page for Current Offering
